

Borg Corgis of Woodside Assimilate Cyclists!!!

Unmistakable evidence on this cyclist's legs of Borg assimilation from these Corgis!

Not sure how this is going to play out in the long run; so far, Kevin's Borg assimilation hasn't caused too many changes in his behavior. But if he suddenly starts climbing even-faster, we'll know why. I didn't spot this happening at the time, but photos don't lie. As Worf said of Captain Picard, "He IS a Borg!"
